MINUTES Meeting of T.C.M.A.F.S September 27, 2013

Prior to the meeting being called to order dispatcher Brian Elton was presented with a plaque and other gifts for his 32 years of service at Tolland County Mutual Aid Fire Service as a public safety telecommunications dispatcher.

The meeting was called to order by President David Eaton at 19:30.

In accordance with county policy the group began with the Pledge of Allegiance.

Thanks to the West Stafford Fire Department for their hospitality and sponsoring this month's meeting.

Attendance: Chiefs- 05, 07, 10, 11, 13, 20, 34, 38, 39, 40, 41, 42, 43 44, 45, 46, 72.

Municipal Reps.- Columbia, Mansfield, Andover, Bolton, East Windsor, Vernon, Ellington, Stafford, Somers, Union.

Guests- See Sign in list.

Correspondence: (C.Hammick Secy) None

C. Jordan made a motion to accept the minutes as written seconded by L. Roberts. Unanimously passed

D. Lucia made a motion to accept the Finance report as written seconded by J. Lorenzetti. Unanimously passed

Finance Managers Report: (J.Turner) As submitted, approved for forwarding for audit.

Executive Director's report: See attached report

Operations Director report: (T. Millix) See attached report

- Approximately 3,000 calls last month

911 Committee: (T.Millix)No report

Legislative: (M.Varney) No report

County Vice: (Past Pres. Ray Gergler)

- Reminded everyone that the State Convention was this weekend in South Windsor.
- R. Gergler stated that he would not be running for County Vice this year.

Eastern Connecticut Fire School (Pete Starkel)

- There is a firefighter survival class going on November 9 and 10th.
- There are still problems with the construction of the new school. Chief Starkel asked that everyone possible contact their representatives to try and move this project forward. The hold up seems to be objectionable views from the state construction office.

OEMS DPH Rep. (Dave Bailey)

- Working on a revised equipment list.
- Spinal immobilization will be implemented soon.
- There will be new refresher exams soon.

Dedicated 911 and dispatching services for the following communities:

ANDOVER - ASHFORD - BOLTON - COLUMBIA - COVENTRY - EAST WINDSOR - ELLINGTON
HEBRON - MANSFIELD - SOMERS - STAFFORD - TOLLAND - UNION - VERNON - WILLINGTON

TOLLAND COUNTY MUTUAL AID FIRE SERVICE INC.

56 TOLLAND GREEN P.O. BOX 6 TOLLAND CT. 06084

Proudly serving since 1950

- NHTSB EMS assessment and recommendations for improvement making their way to final draft.
- EMS Leadership conference N.Britain See DPH Flyer for additional details
- State EMS conference being "Reinvigorated" , may see a NEW type of convention format in future.

County Coordinator:

- There have been two activations that were handled before the coordinators were on scene.
- Working on developing a field reference guide for incidents
- Region 4 grant is being processed

Personnel:

- Performance review with the Finance Director tomorrow.
- There will be a performance review with the Operations Director soon.

Equipment and Grounds:

- Planning on security upgrades on Bald Hill Tower.
- Trees have been removed at the dispatch center.
- Sewer line has been replaced.

Finance Committee Report:

- The audit report was delivered today. Excellent review, no recommendations from our auditor.
- Lump sum payments have been made against our outstanding mortgage balance. We expect to have the remainder paid off within the few weeks.
- Retirement options be explored outside the current MERS system.
- Options being explored in light of FDIC amount changes effective Jan 2014. (\$250,000 coverage going to \$100,000 per account)
- President Eaton reminded everyone that there was a vacancy of the Board of Finance

Radio Committee: See attached report

TWCAA The annual meeting is soon

CL&P Task Force: No report

New Members: None

Old Business: The toning policy was brought up again. Andover is not happy with not having the message put out twice. No changes will be made at this time.

NEW Business

- Nominating committee has two openings. Please contact Dave Eaton if interested in serving.
- Finance Committee has 1 opening, please contact Dave if interested as well.

New Equipment:

- Somers has 2 new identical twin rescue pumpers. 2013 1500/1000 Spartan Gladiators by Four Guys. There will be a wet down in October 12. Stay tuned to email for details.
- West Stafford looking for any 4" hose in good shape. They are interested in purchasing.

Good and Welfare

Executive Director's Report Operations Director's Report

09-18-13

Please see the information below regarding the latest activities of the center.

Executive Directors Summary

Region III PSIC Communications Vehicle/ Training

While MCV has been awarded to us on behalf of Region III, they are not any closer to delivering them. Training and governance is still being developed. The Region IV MCV has been awarded to East Lyme. The staff was able to perform a rather lengthy evaluation of the truck during the Hebron Fair and we will be forwarding our punch list to DEMHS for review.

Regional Center Updates

No movement since last month. Next meeting of the 911 Commission is October 4th and I am sure it will be a topic on their agenda. The NPRC comment period has ended and of the 107 PSAP's in the State there were only about 12 responses. All the responses to the proposed regulation changes are online for review. <http://www.ct.gov/despp>

Hebron

The transition is complete and we have no operational issues. We have been intimately involved with the communications planning for the Hebron Fair. We attended numerous planning meetings and deployed staff to the Fair for the concert on Sunday. Generally, we provided top level communications between the Unified Command Post and the various disciplines, provided video surveillance, and staffed the Incident Dispatcher position within the Unified Command Post with the State Police for the duration of the event. All staff members were previously certified to the COM-T level and this event provided an opportunity for everyone to exercise their skills. The AAR will be conducted on September 20th and we will be providing feedback to Hebron and the Lions Club on what our thoughts were regarding the event.

Fax – 860-872-0382

Overall, the opportunity to assist in coordinating the event will prove beneficial in the long run. Approximately 35,000 people attended the concert.

CMED Directors Group

No report, meetings have been cancelled for the past few months.

Dispatch Furniture RFP

The entire project has been submitted to OSET for review. As soon as we get approval to move forward we will be meeting with the vendors Installation Manager to establish install dates. We do have some ancillary work that will be need to be completed prior to the furniture.

IT topics / Report from Systems Administrator

Work continues on major run card & zone changes. After a false start, the Firehouse software interface is running as intended in Mansfield. Firehouse is now working diligently on East Windsor and Vernon. As always, continue to add/delete/change cell phone info, officer info, program new alpha pagers, provide reports where needed, investigate delayed paging messages, add location alerts. We needed to add some additional components to the CAD as we were depleting our available space on the servers.

Other

The radio project for the Board Room and the offices is finally complete. The County Inventory has been distributed to all the Chiefs for corrections or modifications. The document will be placed on the website under a generic password to the most current document can be accessed at all times. The EOP, which is final stages of modification, will be posted as well which will alleviate older out of date plans being referenced. Once this is completed I will email the Chiefs on how to access the files.

Operations Director's Summary

Monthly Activity Statistics

July	2890 911 calls
August	2930 911 calls

(See additional call statistics by department below)

Employee Issues / Training

The new part time employees are going to EMD training next week. They will then be moved off of their training status and the six month probation will begin. With the addition of the new schedule and the new employees it seems that the payroll has stabilized.

Operational Concerns / Complaints

The Vernon drill went well and was challenging for the staff. Some key points were brought to light during the event. Mainly staffing levels in the dispatch center when an MCI is declared and also the various MCI plans were reviewed.

Radio /Alpha Paging Issues

No major or wide spread issues reported aside of some missteps by the staff regarding dispatches that requires different towers.

QA / SOG Development and Review

The QA is still moving forward and call reviews have begun. We had the recorder upgraded and are still working out a few bugs.

Dedicated 911 and dispatching services for the following communities:

Fax – 860-872-0382

Other

We met with the Officers in North Coventry on Tuesday September 3rd to review radio procedures and general TN operations. We encourage all departments to have us out to one of your officer meetings at least once a year to discuss various topics including dispatching operations, radio procedures, and presentations on the Emergency Operations Plan.

We attended a presentation by Avtec on the new IP Console at Tactical Communications. While the discussion was intended to be an overview of the Avtec Console, we also had a long and detailed talk about the current cross muting issues as well as the possibilities of deploying an IP based console. We have developed an experimental plan to address the cross muting issue with the existing equipment in place that may yield some success. We are working out the details with our radio vendor and we will report back to the group on our success.

We had purchased an interface between Powerphone and New World. Basically the computer based protocols from Powerphone can be used in conjunction with New World to populate certain fields in the EMD interface that allows for improved record keeping as well as assist in the QA process. Both entities could not work out certain aspects of the interface but have recently agreed to both modify their programs to accommodate us. Upon receipt of an EMS call, the Powerphone interface will automatically pop up on the screen based on the call for service type and the caller's interrogation will be displayed to the dispatcher. Questions are prompted and the dispatcher acknowledges each question and answer which is automatically documented in the program. This will provide for a more comprehensive record and again, will assist in the QA process. This will also alleviate us from having to use the EMD books.

Radio Committee Report to Board of Directors September 11, 2013

The last meeting was held August 22, 2013

Attendee's: Tyler Millix, Scott Haddad, Wayne Fletcher, Bill Stanek, Jack Fisher

Hebron Status. Radios working fine with new control station at TN. Bill Stanek is working on the license update to add this control station to the Bald Hill site. Option still not installed at Hebron to allow their usage of the crossband in a non-crossband mode.

Hebron In-Vehicle repeater request on hold at this time. Hebron may have other options they are considering.

The new control station installed at Bald Hill service both Hebron and Box Mountain, which we were previously unable to utilize from TN.

Bill Stanek is continuing to work on a master file for all of TN's licenses. Tyler and Scott have been tagging all radios in the field with the license number and location.

The Birch Mountain site radio conversion is now complete using our own UHF radio and link to the 153.125 paging radio.

The 33.78 crossband radio has been delivered to the Bald Hill site but Tactical has not yet installed it. Also the 33.86 crossband still needs to be re-programmed to 33.44.

The request to the State for the new Dispatch Furniture is with Finance Manager Turner for preparation of the paperwork. Once approved we will be able to place the order.

Either one or two POD's may be required at TN for temporary storage of the new and old furniture during the installation process.

The current storage facility on Kingsbury Avenue is completely full. We need to inventory the items and prepare a list for disposal to be presented to the Board. Bill Stanek will assist us in the evaluation of the material. Tyler will set up a meeting date & time for the inventory/evaluation.

The status of the UPS project in the radio room was not updated as Jack Turner was not available at this meeting to update the Committee.

Tyler, Scott and I attended an Avtec IP Dispatch System demo at Tactical Communications in Guilford on August 28th.

We are still awaiting a quotation for a spares package from Tactical. This is in lieu of a maintenance contract. This package could be a complete system package that could be moved to any site that has a failure of connected temporarily.

The UConn Tower site project is still in the works. Tyler has again been contacted by Captain Makuch at UConn for info on what space/equipment we would plan to put up. Tyler has provided them with a preliminary configuration and hopefully we can have a meeting with all parties shortly.

We again reviewed the muting issues related to the dispatch console when toning out on 33.80. We have come up with a short term fix that was presented to Tactical for consideration. That being turning off most of the 33.80 receivers in the field and only using the one at Bald Hill. Hopefully this would minimize the feedback problems. There really is no advantage to having multiple 33.80 receivers operating simultaneously. We are further reviewing this option at this time. Tactical Communications confirmed that with the new radio console we should be able to take advantage of the features of the IP based to further help the cross muting issue.

The Committee also continued discussions on future projects and direction. The UHF build-out continues to come to the surface. Scott will be working on some possible test evaluations with selective departments and will report back. No actions will be taken until Scott's report and a plan is developed. Any plans would need the approval of the Board members.

A discussion ensued concerning the possibility of having night Radio Committee meetings to satisfy any organization or members that would like to attend a meeting. We will mention it at the next county meeting to see if there is any interest. For all the members the day meetings work best.

The next Radio Committee Meeting is scheduled for October 10, 2013.

Jack Fisher
Chairman

TOLLAND COUNTY DIVE TEAM

Proudly Serving Tolland County and surrounding areas

Field Operations Guide (F.O.G.)

For: Submerged victim

*Informational
for scene*

1. Locate incident commander and obtain basic incident information:
 - a. Determine how long has the victim been under, is a **RESCUE** or **RECOVERY**?

Under 2 HOURS = RESCUE

2 HOURS or more = RECOVERY

If you are unsure of how long the victim has been missing, err on the side of caution (Rescue)
Transmit this information to TN for rebroadcast.

- b. Try to obtain age, sex, clothing and conditions leading to incident.
2. Determine if dive team will respond to incident location or to a staging area. Responding units will need a valid street name and address number. Transmit this to TN so they can page that out to the dive team ASAP. If you are using a remote staging area, you must assign a staging officer who has radio communications to command.
3. Establish scene control. Ensure the scene is secured and limited to those that absolutely need to be there (divers and diver support). Utilize Fire Police or local PD as needed with access and crowd control.
4. Locate credible witness for interview to determine the victim's last scene point. If possible interview witnesses one at a time. Bring them back to where they were standing when the incident occurred to get the most accurate information.
5. Obtain local knowledge about this body of water: bottom composition, hazards in water, diver and boat access. For safety of divers, conduct a risk vs. benefit analysis.
6. Dive operations: you **must** have all three positions filled in order to begin any dive operations.
 - a. A qualified rescue diver who is ready to search
 - b. A second qualified rescue diver acting as a safety (all gear on and ready to go)
 - c. A qualified tender from the dive team handling the search line.

There will be no surface operations (boats) in the area of the divers search patterns.

If a dive commander is on scene they can assess the personnel available and can assist in making the "Go – No Go" determination.

After all of the above steps have been completed, dive operations will be turned over to the next arriving Dive Team Commander.

It is recommended that any possible IC of a dive call review the Dive Annex in the Tolland County EOP

SAVE THE DATE

Dispatcher Retirement

September 13, 2013 8:19 AM

1 Attachment, 32 KB

Chiefs,

After 32 years of service as a dispatcher and also in a supervisory role, Brian Elton has retired from TN. As we all know, Brian was a dedicated employee that always strived for exemplary service to the departments. At the County Chiefs Meeting in West Stafford next Wednesday, dinner will be served at 1830 hrs. At 1900 we will be having a moment to recognize Brian and his long career with TN. TN will be presenting a plaque and a retirement gift to Brian and it is my hope that each department will join us in expressing their gratitude with a token of appreciation to him as well.

Best regards,

Tyler F. Millix

Tyler F. Millix, Executive Director
Tolland County Mutual Aid Fire Service Inc.
