## MINUTES

January 15, 2014

ANNUAL

### Meeting of T.C.M.A.F.S

The meeting was called to order by President David Eaton at 19:30

Thanks to the Mansfield Fire Department for their hospitality and sponsoring this year's annual meeting.

Attendance: Departments: 05, 07, 08 11, 13, 15, 20, 34, 38, 39, 41, 43, 45, 46, 72, 543.

Municipal reps: Mansfield, Hebron, Dowling, Bolton, East Windsor, Vernon, Ellington, Stafford, Somers, Union.

List of guests attached.

Correspondence: None

J. Fisher made a motion to accept the minutes as written seconded by C. Jordan. Unanimously passed

Finance report: See report

W. Fletcher made a motion to accept the Finance report as written, seconded by C. Jordan. Unanimously passed

Executive Director's report:

- A Lead Telecommunicator was appointed, congratulations to Dispatcher Jeff Reust.
- Almost all of the dispatch furniture has been replaced. It was a smooth transition.
- We took delivery of the new communications vehicle

Legislative: The new session starts in 30 days

County Vice:

- Applications for membership were available for the Firefighters Association.
- There is a scholarship that firefighters and junior fighters can apply for.
- Hall of Fame dinner will be held April 9<sup>th</sup>. D. Dagon will be honored at the dinner. Tickets were available from Mike.

A plaque was presented to Former Eagleville Fire Chief Ray Gergler for his years of service as County Vice representative for the past 20 years. On behalf of the President, David Eaton, The Board and the membership of TCMAFS we thank Ray for his dedication and service to TCMAFS.

911 Committee: (Varney)

- Formula change for 911 will be discussed at MECCA but we already know there will be no lower payments than current until a new formula is finalized
- In the end only the legislature can change the formula.

Eastern Connecticut Fire School (Pete Starkel)

- There has been a meeting with the construction manager.
- Site work is underway

*Dedicated 911 and dispatching services for the following communities:*

ANDOVER - ASHFORD - BOLTON - COLUMBIA - COVENTRY - EAST WINDSOR - ELLINGTON

- Thanks for everyone phone calls to their reps for getting this project moving.
- Firefighter I starts this weekend

#### State Tech:

- The new communication vehicle was delivered to Tolland Cnty. One other was assigned to E. Lyme
- Federal budget act solved the IRA vol. FF requirement for health care insurance as passed today.
- Federal military surplus training announced by Rep Courtney today.

#### OEMS

- The TAS Task force met regarding allowing towns to choose their EMS provider.
- BLS skills – They are trying to streamline. As opposed to having to apply to the state you can apply to your sponsor hospital.
- EMT exam - the trial period of 160 question exam is done. The new exam should be out in March.
- There will changes in CPR coming soon

#### County Coordinator:

- The request for service plan was reviewed
- There was one full activation and several partial activations last year.
- The new Dive Team Trailer is being worked on. Equipment is being moved from the old to the new trailer.

#### Equipment and grounds

- Landscaping at the tower
- Rewiring at the dispatch center
- Trees were removed at TN and the tower sight
- The septic was fixed
- New furniture in the dispatch room

#### Finance Committee report:

- The line of credit was approved. \$500,000
- The budget was reviewed

#### Personnel:

- A Lead Telecommunicator was hired Congrats again to Jeff Reust.
- Four new dispatchers were hired last year. Two full time and two part-time.

Radio Committee: See report

TWCAA: Have not met since the last meeting.

#### CL&P Task Force:

- The Willimantic service office is closing.
- Mansfield, Coventry, and Andover will be serviced by Tolland office now.
- Columbia will be serviced by East Hampton offices of NU.

Memo To: Annual County Meeting

From: J. Turner

Date: January 15, 2014

Re: Annual report of activities

The Coordinator Deputies and staff were appointed in February 2013.

Two Coordinator and Staff meeting were held, (TN & No. Coventry)

Request for service and response guidelines were defined and presented in March 2013.

The Fire plan was reviewed with minor update changes.

Coordinator Turner attended three of four Statewide Fire Plan meetings.  
(Southington, Mystic and Colchester)

Coordinator Millix attended the meeting I was unable to attend in ~~W~~-East Hartford

There was one full activation for a search in Ellington. There were two requests for communications assistance with a limited response and quick conclusions. There were several potential call outs but local services were able to mitigate the situation quickly stabilizing the incident.

Most of the behind scenes time was spent in efforts to complete the Dive Rescue Trailer project. The effort was coordinated through Deputy Chief/Coordinator Frank Falcone. As of Thursday January 9, 2014, the trailer was in service with some minor adjustments and set-up to be completed.

 Respectfully,  
John W. Turner  
Tolland County Coordinator

January 15, 2014

To: County Fire Chiefs and Municipal Representatives  
From: David J. Dagon, Chairman of Personnel Committee  
Subject: Report of Personnel Committee activities - 2013

## **Management Plan**

A management reorganization plan was implemented this year. The objective was to create an organizational structure that would reflect the duties and responsibilities of staff; provide a strategic overlap of positions; promote interaction between operational layers; and position the organization to manage programs and workload increases effectively.

Two new positions were created; Executive Director and Lead Telecommunicator. The Operations Director position was retained and the job description was revised. A selection process was initiated for each position and the following candidates were selected:

- Executive Director Tyler Millix
- Operations Director Scott Haddad
- Lead Telecommunicator Jeff Ruest

Employment contracts were negotiated with the individuals selected for the two administrative positions and negotiations were entered into with CILU #76 concerning the Lead Telecommunicator position.

A new rotating work schedule was implemented to insure a supervisory presence during certain periods and strategic overlap of personnel.

## **Contract Negotiations with CILU #76**

As mentioned above, contract negotiations were entered into concerning the Lead Telecommunicator position. Agreement was reached on a pay grade for the position and a new work schedule was created.

## **Lead Telecommunicator**

The selection process for Lead Telecommunicator was conducted. It included an application/resume review, interview with the Personnel Committee, and an Executive Director interview. Jeff Ruest was selected for the position.

## **Finance Director Performance Review**

Finance Director Turner's Performance Review was completed. The Personnel Committee rated the Finance Director's Performance over the last year (ending June 30<sup>th</sup>) as Excellent.

*Dedicated 911 and dispatching services for the following communities:*

*Fax – 860-872-0382*

## **Operations Director Performance Review**

Operations Director Haddad's Performance Review was completed. The Personnel Committee rated the Operations Director's Performance at the end of his six month probationary period (October 2013) as Excellent.

## **Full Time / Part Time Dispatcher position hiring**

The Service conducted two separate hiring processes for both part time and full time positions. Two full time and two part time positions were hired and applicants retained. The Service continually evaluates the workforce and cost efficient scheduling options.

## **Personnel Resources / Management Programs**

An Employee Assistance Program (EAP) and Drug Free Workplace program were implemented. The management team continues to assess system performance while concurrently working to formalize the structure of a Quality Assurance program to insure superior service continues to be provided to member departments.

Respectfully Submitted:

  
David Dagon, Chairman  
Personnel Committee

## January 15, 2014 Annual County Meeting Report

Your Radio Committee had another busy but productive year. We had several regular plus several special meetings as issues arose.

During this past year the following accomplishments or issue were addressed.

- The East Windsor 153.125 Tone and Voice paging radio was replaced.
- A new 33.78 crossband radio as well as several other new replacement upgrade radios were installed at Bald Hill Tolland
- We received FCC license approval to expand the 453/458.275 UHF radio system to 5 additional tower sites.
- A complete new low band/UHF radio system was installed at Hebron Station 10 in preparation for their move to TN.
- Several meetings and discussions were held in preparation to drawing specifications and ordering the new Dispatch Center Furniture. Equipment was ordered from Wright Line and is scheduled for installation second week of January 2014.
- Replacement Radio Dispatching equipment demos were held, along with several meetings to further investigate the replacement options for the old Orbacom system. Avtec was selected as the new replacement vendor. Final configurations will be prepared in early 2014.
- Along with the Avtec recommended vendor, the Board approved a joint venture with QV to move forward with the development of a new interface required to mate this new system with the existing New World CAD system. We want to make sure that this interface is developed prior to any installation of the new Avtec system at TN. Hopefully QV will receive this prior to our system being ready and would have time to iron out any potential bugs with the new interface.
- A new UHF Control Station was installed at TN to allow TN's access to the Bolton and Hebron crossband radios.
- With the moving of Hebron to TN, KX reassigned their UHF link to the VHF paging radio ( 153.125 ) at Birch Mountain to another user. This required TN to purchase a new UHF link radio to that existing radio at this site.
- We had a visit to the UConn Tower site to discuss the option of TN placing equipment there for expanded coverage. Tentative approvals were received and we have submitted our equipment requirements for final approval.
- A major milestone was achieved with the cross muting of the radios in the dispatch center during 33.80 toning. This had been a sore spot for several years and with the replacement of most of the old radios with the newer radios with additional option capabilities we were able to finally solve this issue.
- This past fall we had a major failure of our older microwave system connecting the Dispatch Center with Bald Hill. Through the efforts of our vendor ( Tactical Communications from Guilford ) we were only down for a short period during which they were able to receive emergency shipments of temporary replacements. Along with this equipment and an emergency tower climbing crew, we were back in a single system operation mode within a couple of days. This is only a temporary fix and we have recently met with the vendor for a more permanent fix consisting of a more robust system with expanded channel capability and dual redundant hot standby features. This new system will allow us to totally eliminate the current phone cable connection from the Dispatch Center to Bald Hill. This system is now on order ( costs around

\$200,000.00 ) and should be installed in the next three (3) months. Within that estimated cost Tactical has agreed to take back some of the recently installed emergency equipment for credits.

- We again spent some time looking into our UPS backup system at the Dispatch Center but due to the work load and expenses this past year have not had time to devote our full attention to this issue. The current unit is considerably overloaded.
- We also completed the addition of a radio control link from the Board/ EOC Room to a radio in the Dispatch Room allowing additional communications during times the EOC is activated.
- The current storage facility at Kingsbury Ave, Tolland was emptied of all old equipment and the lease is being terminated.
- TN holds several FCC Radio Licenses which must be constantly monitored by our Committee along with our Consultant. Regular renewal periods must be addressed along with any site changes or additions we make during the year. It seems this results in a constant process for us.

---

Looking ahead we see another very busy year for your Radio Committee.

In conclusion, although this project is far from over, I want to add that over the past several days during the Dispatch Center carpeting and furniture upgrade, I spent only a small portion of my time there compared to the time put in by your Dispatching Supervisors and Staff. From the prior planning and coordination of all outside services required to make this project come to fruition along with the work efforts I have observed during this process need to be commended. The staff has put in an extreme amount of hours, sometimes into the wee hours of the morning that should be noted. As for the on duty Dispatching Personnel, during this period, as I observed, just to be able to maintain normal operations with all that is going on around them and in the midst of the noise, the many workers present and activities and have still are able to professionally monitor and handle emergency calls needs to be recognized. In the midst of this all they have to put up with me taking progress photos for our future history documentation.

And this is only the first step in our Dispatch Center upgrade as the next step will be to replace our current obsolete Radio Dispatching system which will also prove to be a major project. After observing the current efforts I am very confident that this phase will also be well coordinated and approached with the same professionalism.

I am sure I can speak for the entire Board in expressing our recognition and appreciation to all the staff for your efforts.

Respectfully

Jack Fisher

Chairman **Committee Members**, Wayne Fletcher, Ashford, John Turner, Ellington, Mark Dittrich, South Coventry , Tyler Millix & Scott Haddad ( Dispatch Center Reps)

## **Executive Director's Report / Operations Director's Report 01-15-14**

### **Monthly Activity Statistics**

We received 2889 911 calls for the month of December resulting in 1515 calls for service. (See attachment).

### **Employee Issues / Training**

We formally appointed Jeff Ruest to the position of Lead Telecommunicator. We look forward to blending him into the ongoing projects and hope you join us in wishing him well in his new position. EMD re-certifications are being done this month by the dispatchers online.

### **911 Commission / Regional Updates**

The 911 Commission meeting was cancelled due to weather and re-scheduled for January 17<sup>th</sup>.

### **Communications Truck**

Training has been completed and we have taken possession of the truck. While there is a small punch list of items to complete on the truck, it is in service. We are working on some guidance for all departments that explains the capabilities of the vehicle and examples of appropriate events where it will be useful as well as dispel some myths on its capabilities. Please look for this document in the coming days. The vehicle will be on display both before and after the Annual Meeting.

### **Dispatch Furniture RFP**

The new furniture install began on Monday and is progressing well. The project should be complete by the end of the upcoming weekend. If any departments are interested in visiting the center please coordinate through Scott once everything is completed.

### **IT Topics**

CAD work continues with run card modifications and cell/alpha changes. Copious amounts of time have been spent preparing for the new consoles. Most computers are now remoted to the radio room and new programs installed.
